

Best for Luxury

Charabanc signal red pomander with Monument Valley car fragrance journey

Best: For luxury

Rating: 8/10

Everything about this item screams luxury and sustainable design. It's gorgeous: a hand-crafted steel pomander with a sumptuous moulded leather cap and lanyard. It's also versatile – you can hang it on your rearview mirror, drop it into a cup holder or attach the magnetic backing to insert it into the air vent (this is the strongest way to experience the scent, when the air or heat are turned on). Unlike a fragrance you know and expect, Charabanc's scents are olfactory journeys, layered, complex and inspired by serious road trips. We found the Monument Valley drive fragrance – which combines raspberry, violet leaves, thyme, cypress oil, saffron, amber, jasmine, mate and leather – utterly transportive and intoxicating, even when driving to distinctly unglamorous destinations. You can choose from a range of leather colours and scents.
